Máscaras Labiales

Las mascarillas labiales son tratamientos labiales densos y profundamente nutritivos, formulados para restaurar la hidratación, promover la cicatrización y prevenir la pérdida de humedad con mayor intensidad que otros productos tradicionales para el cuidado labial.

Sephora se asoció con Laneige en 2017 para el lanzamiento exclusivo de su mascarilla labial de noche, que continúa siendo la más vendida en la categoría de cuidado labial y el tratamiento labial número 1 en EE. UU.

Se prevé que el mercado de productos para el cuidado labial siga experimentando un fuerte crecimiento en los próximos años, con una valoración de 2500 millones de dólares en 2024 y una tasa de crecimiento anual compuesta estimada del 7,5 %, hasta alcanzar los 3340 millones de dólares en 2028.

Ingredientes principales para el cuidado de los labios: Ácido Hialurónico, Vitamina E, Manteca de Karité, Cramidas, Glicerina, Escualano G, Aceite de Ricino.
